Dear Campus Community,

It is with much pleasure and pride that I announce the unofficial report delivered by the Middle States Commission on Higher Education Evaluation Team during its exit report this morning. The University of Maryland Eastern Shore met all of the 14 standards required for accreditation. There were no recommendations and several commendations. There were several professional suggestions.

University accreditation confirms a high level of excellence in our practices and a commitment to the students we serve. The accreditation process is truly a university-wide effort demonstrating our ability to operate with a 'unified-purpose' toward the fulfillment of a goal. Our success was also due to the excellent work in assessment and evaluation. This must continue.

Thank you for your contribution to our success and for your continued commitment to a high quality of academic programs and services. As we say, accreditation is a way of life here.

Congratulations!
