Counselor Trainee Practicum Packet

Practicum students are expected to integrate and apply the knowledge and skills acquired throughout the program. Students are placed in school settings at the elementary/middle and high school levels where they can participate in all activities that a professional school counselor is expected to perform.

All practicum experiences are supervised by a Counselor Education faculty member and an on-site supervisor. Students receive both individual and group supervision. Students are required to submit documentation of their practicum work through video tapes, audio tapes, written reports, and self-assessment of counseling work. Student evaluations are a compilation of feedback from several sources, the documentation stated above, input from the field supervisor, and the comprehensive overview of the university supervisor.

The practicum will have sufficient duration and continuity to assure optimum professional development (minimum 500 hrs). Students are expected to:

1. Be involved with two practicum experiences, one at the elementary/middle school level and the other at the high school level
2. Participate in all relative experiences of the guidance program
3. Have regular meetings with the on-site supervisor
4. Attend practicum seminar meetings under the University’s Counselor Education faculty
5. Be available for individual supervision with the University’s supervisor
6. Keep accurate documentation of all practicum activities on the specified forms
7. Provide audio/video recordings of individual and/or group counseling session.
The practicum will be under the supervision of a practicing school counselor who is certified by the Maryland State Department of Education and endorsed by the Guidance Supervisor of the local educational agency. The on-site supervisor is expected to:

1. Provide the student with an orientation to the school, the faculty, and the guidance program
2. Inform student of all activities that a professional school counselor is expected to perform
3. Develop, with the student's assistance, a format, including duties and responsibilities for the semester
4. Meet at least weekly with student to plan appropriate professional activities and to discuss progress or any problems or concerns of either of the two
5. Provide the student with clients and facilities for the counseling sessions
6. Review weekly logs on a regular basis to determine effectiveness of activities
7. Meet with the university supervisor on scheduled visits to review student's progress
8. Aid the practicum student in receiving permission for audio taping
9. Complete the evaluation forms and discuss observations with the student

The university's supervisor is a Counselor Education faculty member who is competent and has experience in the counseling field. The university supervisor is expected to:

1. Facilitate placement of the Counselor Education students who have met the program's pre-requisites for practicum
2. Advise students of the practicum requirements
3. Establish the competencies and performance criteria for the field experience
4. Provide individual and group supervision in the practicum seminar
5. Maintain liaison with the on-site supervisor via scheduled on-site visits and telephone communications.
6. Evaluate the student's performance and assign a grade
