Frederick Douglass Library is pleased to present a thought-provoking retrospective on the dedication and achievements of the remarkable women who have studied at UMES over the past eight decades. This new exhibit recognizes their contributions and accomplishments - from the local to the national level — and traces the career paths and vocations they followed. Their journey reflects the long history of co-educational opportunities at our institution during its evolution from Princess Anne Academy to Princess Anne College to Maryland State College to UMES, and a progression of advanced degrees earned here and beyond. Come enjoy the images, three-dimensional displays and textual documentation of the lives of these Alumnae of Distinction.
