EDUCATION:

Doctor of Veterinary Medicine

Mississippi State University College of Veterinary Medicine, Starkville, MS; 1984

Master of Public Health

Emory University, Rollins School of Public Health, Atlanta, GA; In progress

Graduate Certificate in Medical Informatics

Oregon Health Sciences University, Portland, OR; 2004

Graduate Certificate in Statistical Analysis in Production Medicine

Michigan State University, East Lansing, MI; 2000

Licensed Mississippi Board of Veterinary Medicine – Veterinary License 757

Licensed Alabama State Board of Veterinary Medical Examiners – Veterinary License 5993

USDA-APHIS – National Veterinary Accredited Veterinarian – Category II – State of Mississippi

EMPLOYMENT HISTORY AND RESPONSIBILITIES:

2024 - Present

University of Maryland Eastern Shore-School of Veterinary Medicine (UMES SVM), Princess Anne, MD

Dean, Professor

Responsible for developing and overseeing the University of Maryland Eastern Shore School of Veterinary Medicine DVM program, including the AVMA COE accreditation process. I serve as the chief executive officer for the School of Veterinary Medicine and serve as a member of the University Dean's Council, advising the Provost and President on matters related to the School of Veterinary Medicine.

- Dean, July 2024 – current

Responsibilities and Accomplishments include:

- Leadership in launching the Doctor of Veterinary Medicine program
 - Overseeing the establishment of the SVM at UMES — the first standalone veterinary medicine school in Maryland and among the first at a public HBCU.
 - Leading the accreditation process with the American Veterinary Medical Association (AVMA) Council on Education.
 - Designing the curriculum including an accelerated three-year Doctor of Veterinary Medicine (DVM) program.
- Academic and curricular management
 - Developing and overseeing the curriculum to ensure day-one readiness (small & large animal, food-animal tracks, One Health).
 - Recruiting faculty, associate deans (academics, research, clinical affairs) and staff positions necessary for establishing a new school.
 - Setting policies, standards for student admissions, clinical rotations, partnerships with external practices and labs.
- Strategic vision and external partnerships
 - Building relationships with veterinary practices (private, corporate), diagnostic labs, large-animal sites, and agricultural/food-animal industry partners, especially in the Delmarva/Eastern Shore region.
 - Advocating for support (state funding, infrastructure, facility planning) and managing institutional-level decisions (facility size, budget modelling).
 - Establishing educational agreements with multiple HBCU and other pre-veterinary programs
- **Diversity, outreach and workforce impact**
 - Positioning the School to respond to workforce shortages in veterinary medicine (esp. rural, food-animal) and increasing diversity in the profession (under-represented minorities in veterinary medicine).
 - Serving the land-grant mission of UMES (an 1890 HBCU) through community outreach, animal health services, and public-health/One Health connections.
- **Operational planning and infrastructure**
 - Overseeing planning for the physical facilities (e.g., a new building, large animal training barn) and budget projections (e.g., target enrollment, tuition, sustainability).
 - Ensuring the school's model (clinical education not via traditional teaching hospital but through distributed practice model) is financially viable and pedagogically robust.
 - Positioning the School of Veterinary Medicine structurally and financially; projecting enrollment (100 students per class), engaging in fundraising and infrastructure planning for a new facility (e.g., approximately 176,00 sq ft building).

2022 - 2024

University of Arizona-College of Veterinary Medicine (UArizona-CVM), Oro Valley, AZ

Associate Dean of Clinical Relations, Professor

The University of Arizona-College of Veterinary Medicine is an innovative program three-year Doctor of Veterinary Medicine program, with the mission to continuously improve how we educate and innovate so we can lead the way in developing adaptive problem-solvers capable of tackling our most significant challenges. We focus on high-quality, practical-based, student-centered education to produce day one competent, confident, and productive veterinarians to meet diverse roles in the ever-changing spectrum of veterinary medicine. Key innovations of this program include a hybrid distributive learning model and a team-based pre-clinical curriculum (rich in professional and clinical skills).

- Associate Dean of Clinical Relations Veterinarian, December 2022 – September 2024

Responsibilities and Accomplishments include:

- Oversight of the UArizona-CVM clinical year program
- Lead administrative staff and veterinarians in the design, implementation, launch, oversight, and guidance of a novel and innovative hybrid distributive clinical year veterinary program
- Develop overall clinical year curriculum
- Recruitment, education, and oversight of potential and actual UArizona-CVM Clinical Affiliates
- Coordinate various student outcome assessments in the clinical year curriculum and develop assessment tools for clinical year and participate in the assessment of students in the clinical year
- Council and mentor clinical year students
- Plan, develop, and participate in the execution of the clinical year program development strategy and ongoing improvement processes
- Facilitate, coordinate, and develop clinical research projects for the Clinical Relations team and collaborate with other researchers
- Participate and assist in the hiring and onboarding of new team members
- Oversee and develop budget for clinical year program (currently \$4.4 million yearly)
- Develop and deliver training material to Clinical Affiliate practitioners and their teams
- Responsible for recruitment, hiring, oversight, training, coaching, and partnering with Clinical Course Mentor veterinarians, who directly interact, support, mentor, evaluate, and access clinical students virtually
- Liaise with Clinical Affiliates involved in the delivery of clinical year curriculum
- Initiate discussions with other veterinary schools (Ross University School of Veterinary Medicine and St. George's University School of Veterinary Medicine) to provide clinical training for some of their students

- Advise college on AVMA-COE accreditation matters pertaining to clinical year
- Prepare and edit various UArizona-CVM reports to the AVMA-COE
- Interact with and visit various program partners and potential partners
- Outreach to various groups including veterinarians, veterinary industry partners, and the public
- Use VetMedHub healthcare educational software package to develop, collect, and evaluate student information gained in their pre-clinical and clinical learning experiences (Important for AVMA Council of Education accreditation)
- Help develop Clinical Affiliate Quality Assurance (CAQA) program for core clinical affiliates and perform CAQA assessments of new and existing clinical affiliates
- Interact and educate key strategic partners in telehealth/virtual care for the development of pilot projects and programs utilizing telehealth/virtual care
- Liaison partner with virtual care groups to develop and utilize virtual care in various projects within the clinical year program
- Present informational seminars to interested parties in person and via webinar presentations, including student applicants, potential student applicants, veterinarians, and admissions personnel
- Educate interested parties on UArizona-CVM
- Member of the Dean's Executive Leadership Team

2016 – 2023

Lincoln Memorial University-College of Veterinary Medicine (LMU-CVM), Harrogate, TN

Professor

The Lincoln Memorial University-College of Veterinary Medicine is an innovative program, which hallmarks high-quality, practical-based, student-centered education to produce day-one competent, confident, and productive veterinarians to meet diverse roles in the ever-changing spectrum of veterinary medicine. Key innovations of this program include a hybrid distributive learning model, collaborations with centers of research excellence, immersive pre-clinical curriculum (rich in professional and clinical skills), and the OneHealth program.

- Clinical Relations Veterinarian, Clinical Relations and Outreach, November 2016 – January 2023

Responsibilities and Accomplishments include:

- Assist in the design, implementation, launch, oversight, and guidance of a novel and innovative hybrid distributive clinical year veterinary program
- Recruitment, education, and oversight of potential and actual LMU-CVM Clinical Affiliates
- Plan, develop, and participate in the execution of the clinical year program development strategy and ongoing improvement processes

- Serve as administrative point-person in the absence of the Associate Dean of Clinical Relations and Outreach
- Facilitate, coordinate, and develop clinical research projects for the Clinical Relations team and collaborate with other researchers
- Develop and deliver training material to Clinical Affiliate practitioners and their teams
- Partner with and coach Area Liaison veterinarians to oversee and support students and clinical affiliates
- Responsible for recruitment, hiring, oversight, training, coaching, and partnering with Clinical Course Mentor veterinarians, who directly interact, support, mentor, evaluate, and access clinical students virtually
- Liaise with Clinical Affiliates involved in the delivery of clinical year curriculum
- Deliver clinical training to 4th-year veterinary students and visiting clinical students (from Ross University School of Veterinary Medicine and St. George's University School of Veterinary Medicine) virtually and clinically
- Interact with and visit various program partners and potential partners
- Outreach to various groups including veterinarians, veterinary industry partners, and the public
 - Clinical Affiliates and potential clinical affiliates
 - Recruit, interact, and liaison with large practice groups including Alliance Animal Health, Amervet, American Veterinary Group, Banfield, BluePearl, Community Veterinary Partners, Lakefield Veterinary Group, Mission Veterinary Partners, THRIVE Pet Care, People Pets & Vets, Pet Partners, PetVet Care Centers, PetWell Partners, Southern Veterinary Partners, VCA, Vet's Best Friend, WellHaven
 - Liaison between LMU-CVM and the University of Kentucky Veterinary Diagnostic Laboratory for the Clinical Year Program
 - Liaison between LMU-CVM and various shelter programs, including the Kentucky Humane Society, LifeLine Animal Project, SPCA FL, and SPCA serving Erie County
- Instrumental in the establishment of Clinical Year Student Awards for clinical students that directly go toward payment of student tuition
 - Led discussion with Southern Veterinary Partners that resulted in establishing up to three \$25,000 Clinical Year Student Awards for 4th year veterinary students
 - Led discussion with VCA that resulted in establishing up to four \$35,000 Clinical Year Student Awards for 4th year veterinary students
 - Led discussion with Community Veterinary Partners that resulted in establishing two \$50,000 Clinical Year Student Leadership Awards for clinical veterinary students
- eValue® administrator for the LMU-CVM Clinical Year Program (Important for AVMA Council of Education accreditation)
- develop assessment tools for clinical year and participate in the assessment of students in the clinical year

- Train students, staff, new faculty, and other team members on how to utilize eValue for their specific uses
- Partner with eValue support team on new and unique applications and projects that are specific to our clinical program
- Oversee student scheduling optimization process in eValue®
- Use eValue® healthcare educational software package to develop, collect, and evaluate student information gained in their pre-clinical and clinical learning experiences (Important for AVMA Council of Education accreditation)
- Help develop Clinical Affiliate Quality Assurance (CAQA) program for core clinical affiliates and perform CAQA assessments of new and existing clinical affiliates
- Participate and assist in the onboarding of new team members
- Interact and educate key strategic partners in telehealth/virtual care for the development of pilot projects and programs utilizing telehealth/virtual care
- Liaison partner with virtual care groups to develop and utilize virtual care in various projects within the clinical year program
- Participant in planning and implementation of the LMU-CVM professional skills curriculum over 6 semesters in the pre-clinical years
 - Participant in and lead Communication lectures and workshops
 - Deliver material for Evidence-Based Veterinary Medicine and Telehealth/Virtual Care lectures in the Professional Skills curriculum
- Participate in the planning, implementation, and delivery of the LMU-CVM required Practice Management course
- Participate and present material in the LMU-CVM clinical skills curriculum over 6 semesters in the pre-clinical years
- Develop curriculum content, syllabus, and delivered course material content for virtual, online SA General Practice elective course
- Co-developed syllabus, curriculum content, and delivered course material for Clinical Orientation course
- Educate interested parties on LMU-CVM
- Work with other units within LMU-CVM and affiliate partners (Center for Animal and Human Health in Appalachia, Center for Innovation in Veterinary Education Technology, Kentucky Humane Society) on various projects
- Present informational seminars to interested parties in person and via webinar presentations, including student applicants, potential student applicants, veterinarians, and admissions personnel
- Interview LMU-CVM applicants for admissions, 2016 - present
- Member of the Admissions Committee, 2016 – present
 - Vice-Chair, 2018-2019
 - Chair, 2019 – 2020
 - Interview Chair, 2020 - current

- Clinical Affiliate Advisory Board 2016 – present
 - Chair, 2018 – present
- Clinical and pre-clinical student advisor, 2016 – present
- Advisor to Center for Animal and Human Health team on technology and clinical program
- Search committee lead and member of various search committees for faculty and staff

2008 – 2017

Banfield Pet Hospital

Banfield Pet Hospital is a privately held group of veterinary hospitals owned by Mars, Inc., which consists of over 1000 veterinary hospitals, and employs over 3500 veterinarians in 44 states and Puerto Rico. Banfield is part of Mars Petcare, which encompasses Banfield Pet Hospital, VCA, BluePearl, Linnaeus, and AniCura veterinary hospitals, along with other pet food and pet care related units, in the United States, Mexico, and Europe. Banfield Pet Hospitals focus on lifelong preventive health care and wellness, along with ensuring the human-animal bond. Banfield operates in a team-oriented environment where employee development is valued.

- Medical Director – MidSouth Market, 2013 – 2017
- Medical Director – Dallas Market, 2011 – 2013
- Chief of Staff – Mobile, Alabama, 2010 – 2011
- Chief of Staff – Spanish Fort, Alabama, 2008 – 2010

Responsibilities and Accomplishments during time with Banfield Pet Hospitals included:

- Multi-unit management and oversight of chief of staff veterinarians, associate veterinarians, and staff team members in 34 hospitals in six states
- Provided direction and oversight of medical quality and practice standards for each hospital that involved a doctor team of up to 100 veterinarians in two markets
- Partnered with Field Director to plan, develop, and implement the strategy for hospitals within markets, including financial market and hospital reviews, resulting in increases in annual revenue and average patient charge each year
- Recruited, hired, coached, and mentored doctors within markets
- Liaison with three veterinary colleges: Auburn, Tuskegee, and Mississippi State
- Medical Director of the Year in 2013
- Oversaw medical quality as the chief clinical veterinarian in a busy, multi-doctor, full-service small animal hospital with a focus on preventive care
- Partnered and coached team in topics of medical quality, client service, consistency, and efficiency to see both hospitals grow in revenue, average patient charge, and client satisfaction

- Supported Field Director by coaching on medical quality issues in other hospitals in the market
- Partnered with Medical Directors in other geographic areas to develop training programs for newly hired veterinarians and veterinary student programs
- Served on Banfield's Medical Standards Board Formulary Committee, the Advisory Board for the Banfield Journal (developed and authored articles), and partnered with the data and informatics team on various projects (including electronic medical records and evidence-based medicine).

2001 – 2008

Mississippi State University College of Veterinary Medicine (MSU-CVM), Starkville, MS

- Clinical Professor, Department of Pathobiology and Population Medicine, 2008
- Director of the Office of Outreach & External Affairs, 2006 – 2008
- Coordinator of the Office of Special Program, 2005 – 2006
- Coordinator of Veterinary Extension & Informatics, 2001 – 2008
- Associate Clinical Professor, Department of Pathobiology and Population Medicine, 2001 – 2008

Responsibilities and Accomplishments included:

- Directed the Office of Outreach and External Affairs, including management and oversight of three staff members
- Directed Veterinary Extension activities for the College of Veterinary Medicine including interaction with other departments across the university
- Member, Dean's Administrative Cabinet
- Advised and facilitated the development of a veterinary public health emphasis area within a Master of Public Health program in cooperation with the University of Southern Mississippi including advising students interested in public health
- Served as liaison to Centers for Disease Control and Prevention for College-related activities, including CDC Veterinary Student Day, Association of American Veterinary Medical Colleges Public Health Committee, and American Association of Extension Veterinarians
- Served as Public Information Officer for the College in the event of disaster and emergency responses and founding member of the College's disaster committee
- Working closely with the Mississippi State Veterinarian's office on issues such as disaster and emergency response, youth livestock activities, and technology.
- Served as primary contact for College on state and federal legislative issues
- Facilitated the establishment of a clinical outreach specialty practice within the College and served as the primary contact between the College and associated veterinary practitioner groups
- Advised and facilitated outcomes assessment activities for College, including clinical outcomes
- Maintaining membership in College's PEAQ group (Performance, Evaluation, Accountability, and Quality) – founding member
- Planned and coordinated college-wide events and continuing education events

- Produced publications and administered public relations events for the College
- Worked closely with the division's Department of Agricultural Communication to produce various public relations material for the College
- Worked closely with the College's Development Officer in the area of Alumni Affairs and Development
- Oversaw technology activities of the College, including the Information management software system (UVIS), Faculty database management tool (eCV), website, videoconferencing, PACS system, online surveys, and assessments
- Coordinated and collaborated with National Center for Biodefense Communication and National Animal Health Laboratory Network (NAHLN)
- Course leader for Veterinary Medical Informatics and Evidence-based Medicine, Professional Development I, and Professional Development II
- Served as Facilitator for Problem-based Learning courses

1984 – 2002 Private Veterinary Practice:

Northwest Rankin Animal Clinic, Brandon, MS

- Owner / Chief Veterinarian, 1988 – 2002
- Owned, managed, and directed the veterinary care for this progressive small animal veterinary hospital. Employed seven (7) veterinary associate doctors during this time. Mentored local high school students. Gave presentations to local organizations and schools.

Mobile Animal Clinic, Brandon, MS

- Owner / Chief Veterinarian, 1986 – 2002
- Owned, managed, and directed the veterinary care for this progressive mobile mixed animal house call practice.

Pfizer Animal Health, Essex, PA

- Clinical Investigator for the Revolution pharmaceutical study, 1999 – 2000

Hinds Community College, Pearl, MS and Jackson, MS

- Part-time Instructor, Biological Sciences, 1992 – 1995
- Taught courses in Microbiology, Biology, and Anatomy/Physiology

West Side Veterinary Clinic, West Point, MS

- Associate Veterinarian, 1984 - 1986
- Managed mixed animal veterinary practice
- Shared equally in office appointments, emergency duties, and farm calls

CONSULTING:

Consortium on Workplace-Based Education and Learning (COWBEL), 2017 – present

- Founding member of the group
- Nine colleges of veterinary medicine currently participate in the consortium which includes international members
- Working with others on developing and supporting workplace-based education environments through designing evidence-based materials for all participants in clinical education
- Serve as Chairperson of COWBEL Partnership committee
- Served as Chairperson of COWBEL Scholarship-Research committee
- Member of COWBEL Academic and Operational committees

VETSolutions consultant, Mississippi State University College of Veterinary Medicine

- Provided consultation guidance in the development of their innovative Enhanced Clinical Practicum program
- Enhanced Clinical Practicum program includes two four-week core clinical practice experiences to third- and fourth-year veterinary students, providing them with opportunities to enrich their clinical skills in a private veterinary practice setting while enhancing other skills such as client communication and business management.
- Worked with program director to develop program framework, curriculum, and processes

VetNOW Virtual Care, Pittsburg, PA

- Advisory board member of virtual care/telemedicine company
- Work primarily with university and corporate group

VetWindows, Brandon, MS

- Consultant for veterinary information management software company
- Content advisor and project manager for software updates

COMMITTEES AND SERVICE:

University of Maryland Eastern Shore

- Provost Dean's Council
- Vice-President for Finance and Operations Search Committee
- Vice-President for Research Search Committee
- President's Advisory Council

University of Arizona College of Veterinary Medicine

- Dean's Executive Team (member), 2022 – present
- Search Committee for Clinical Year Mentors (chairperson), 2023
- Search Committee for Clinical Relations Veterinarian (chairperson), 2024

American Veterinary Medical Association (AVMA)

- Alternate AVMA Delegate representing Mississippi Veterinary Medical Association
- Council on Education Selection Committee, 2025 – current
- Council on Veterinary Service (CoVS), 2016 – 2025
 - Elected to Council by the AVMA House of Delegates
 - Chair, 2020 – 2023
 - Vice-Chair, 2019 – 2020
 - CoVS Expanded Working Group chairperson, 2022 – present
 - Task Force on Telehealth/Virtual Care, 2018 – present
 - Chair, Model Veterinary Practice Act Working Group, 2022 - present
- Joint AVMA/AAHA Task Force on Telemedicine, 2020 – 2023
- AVMA Coalition for Connected Veterinary Care, member

American Journal of Veterinary Research (AJVR)

- Reviewer for American Journal of Veterinary Research articles
 - “Veterinary students’ perceptions towards incorporating and expanding telehealth service delivery knowledge in curricula and future practice: A cross-sectional study,” 2024

American Association of Veterinary Medical Colleges (AAVMC)

- Reviewer for Journal of Veterinary Medical education articles
 - "The importance of preparedness characteristics for veterinary workplace clinical training (WCT) in a distributive curriculum," 2024
 - “Experiences on introducing a team-based knowledge summary to student veterinary nurses/veterinary technicians,” 2020
 - "Investigating the relationship between Multiple Mini Interview communication skills outcomes and first-year communication skills performance and reflections in students at the Ontario Veterinary College," 2022

East Tennessee Foundation

- Veterinary Scholarship Evaluator, 2024

Lincoln Memorial University College of Veterinary Medicine (LMU-CVM)

- Search Committee for Assistant Dean of Student Success (member), 2019
- Search Committee for Coordinator of Veterinary Simulation (member), 2019
- Admissions Committee, 2016 – 2023
 - Co-Chair, 2018 – 2019
 - Chair, 2019 – 2020
 - Interview Chair, 2021 – 2023
- Awards and Scholarship Committee, 2016 – 2022
- Veterinary Biomedical Science Admissions Committee, 2017 – 2018

- LMU-University of Kentucky Veterinary Diagnostic Laboratory (UKVDL) Transition Committee, 2016 – 2023
- Clinical Affiliate Advisory Board, 2016 – 2023
- LMU-UKVDL Pathologist Search Committee (member), 2016-2017
- LMU-UKVDL Necropsy Technician/Student Coordinator Search Committee (chairperson), 2016-2017

Banfield Pet Hospital

- Medical Standards Board
- Medical Formulary Committee
- Banfield Journal Advisory Board

Mississippi State University

- Search Committee for Medical/Veterinary Extension Entomologist (member), 2008
- MSU Distance Learning Advisory Council, 2005 – 2008
- Instructional Technology Advisory Committee, 2002 – 2008
- Institutional Technology Advisory Group, 2002 – 2008
- Ad Hoc Committee on Student Computer Requirements, 2002 – 2008
- Agriculture, Forestry, and Veterinary Medicine Division Leadership Council, 2008
- Agricultural Summit II: Task Force on the Global Economy, 2001
- CVM Alumnus of the Year and Alumni Fellow Selection Committee Chair, 2003 – 2008
- Alumni Awards Committee Chair, 2003 – 2008
- Open House Committee Chair, 2003 – 2008
- CVM Website Development Team Chair, 2002 – 2008
- Computer Advisory Group Chair, 2002 – 2008
- All College Day Committee Chair, 2002 – 2008
- Clinical Outcomes Assessment Task Force, 2007 – 2008
- Admissions Task Force, 2007
- CVM Disaster Committee, 2006 – 2008
- Information Technology Task Force, 2006 – 2007
- Recruiting Task Force, 2006 – 2007
- Admissions Committee, 2005 – 2008
- Public Health Informatics Symposium Committee, 2002 – 2003
- CVM-Mississippi Veterinary Medical Association (MVMA) Liaison Committee, 2002 – 2008

PROFESSIONAL and SCHOLARLY ORGANIZATIONS:

American Veterinary Medical Association – Member

American Veterinary Medical Association Council on Veterinary Service – Member, Vice-Chair, and Chair

Alabama Veterinary Medical Association – Member

Mississippi Veterinary Medical Association – Member, Executive Board Member, Treasurer, Vice-President, President-Elect, President, Past-President, Committee Member
Kentucky Veterinary Medical Association – Member
Tennessee Veterinary Medical Association – Member
American Medical Informatics Association – Member, Publication Reviewer
American Public Health Association – Member
American Association of Extension Veterinarians – President, President-Elect, Executive Board Member
American Association of Veterinary Laboratory Diagnosticians – Past Member, Committee Member
Association of American Veterinary Medical College – Past Committee Member
Association of Veterinary Informatics – Member, President, President-Elect, Past President
American Animal Hospital Association – Associate Member
American Association of House-call Veterinarians – Past Member
Association of American Veterinary Medical Colleges Journal – Publication Reviewer
Evidence-Based Veterinary Medical Association – Charter/Founding Member, Executive Board, Regional Director, Nominating Committee Member
Greater Jackson Veterinary Medical Association – President, President-Elect
Gamma Sigma Delta – Member
The Society of Phi Zeta – Member
Veterinary Medical Database Association – Past Member, President, President-Elect
United States Animal Health Association – Past Member, Committee Member

HONORS and AWARDS:

Banfield Medical Director of the Year – South Region, 2013
Dean's Pegasus Award for Service, College of Veterinary Medicine, Miss. State University, 2007
Phi Zeta Veterinary Honor Society, 2005
Who's Who in Executives and Professionals, 2005
Leon Turner Award, College of Veterinary Medicine, Miss. State University, 1984

GRANTS and CONTRACTS:

Assessing the Needs and Outcomes of Modern Veterinary Education to Improve Canine Health. Patterson G, Trofatter M, Maddux M, Grusynski K, Nahar V, Daily-Trude K, **Robertson SR**, Weale J, Maddux M, Johnson J. Stanton Foundation, 2019 - 2020, \$1,500,000 (submitted).

Assessing the Effectiveness of Virtual Care Utilization in Rural Veterinary Practices in the Appalachian Region. **Robertson SR**, Patterson G, Trofatter M. Lincoln Memorial University Intramural Grant, 2020, \$28,500 (submitted).

Application of Multi-theory Model (MTM) to predict intentions to use telehealth/telemedicine among veterinarians. **Robertson SR**, Nahar V, Johnson J, Grusynski K. Lincoln Memorial University Intramural Grant, 2020, \$19,745.

Strengthening Feline Adoption and the Feline Forever Home Journey through Virtual Veterinary Care. **Robertson SR**, Weale J. The CATalyst Council, 2019, \$35,000.

Providing Access to Care Partnerships in Appalachia: A Pilot Study. **Robertson SR**, Spangler D. PetSmart Charities, 2019, \$400,000 (submitted).

Assessing the Needs and Outcomes of Modern Veterinary Education to Improve Canine Health. Patterson G, Trofatter M, Maddux M, Grusynski K, Nahar V, Daily-Trude K, **Robertson SR**, Weale J, Maddux M, Johnson J. Stanton Foundation, 2018 - 2019, \$149,400.

Developing a system for reporting diseases through the National Animal Health Laboratory Network. Pace LW, **Robertson SR**. USDA-CREES and Homeland Security Administration, 2005-2008, \$140,000.

American Kennel Club Disaster Vehicle for use in disaster, emergency, and clinical situations. **Robertson SR**, Bushby P. American Kennel Club, 2006, \$100,000.

Development of animal health monitoring systems for reportable diseases. Pace LW, **Robertson SR**. Mississippi Board of Animal Health, 2006, \$22,500.

Development of a biodefense communication system for rural America. Mawson T, Okojie F, Kelly D, **Robertson SR**, Brown W, Sheppard B. USDA-CREES, 2003–2006, \$750,000.

Development of animal health monitoring systems for reportable diseases in Mississippi. Pace LW, **Robertson SR**. Mississippi Board of Animal Health, 2005, \$25,000.

Developing a web-based BQA training program. Engelken T, **Robertson SR**, Blossom S. National Cattlemen's Beef Association, 2003–2004, \$8,000.

Developing an evidence-based veterinary medical training program. **Robertson SR**, Cooper R. Pfizer Educational Grant, 2003, \$5,000.

Developing an evidence-based veterinary medical program using private veterinary practitioners. **Robertson SR**, Cooper R. Pfizer Educational Grant, 2002, \$5,000.

A training program for veterinarians in quality assurance. Engelken T, **Robertson SR**, Groce AW. National Cattlemen's Beef Association, 2002, \$8,000.
