**GEOSCIENCES BRIDGE PROGRAM**

The Geosciences Bridge Program is a collaborative summer program designed to recruit and train high school students, particularly from underrepresented groups, in various geoscience fields. The collaboration is between the National Oceanographic and Atmospheric Administration’s (NOAA) Cooperative Science Centers (CSC).

The program offers a 6-week paid internship ($500/week stipend + housing + meals) for students planning to pursue careers in a field of geoscience. The program includes lectures, field trips, hands-on activities, 2 courses for college credit (math and freshman seminar), housing, meals, travel to and from the University of Maryland Eastern Shore, and a stipend.

**WHO CAN APPLY**

Graduating High School seniors who plan to pursue a bachelor’s degree in a geoscience discipline; priority is given to students planning to attend a NOAA Cooperative Science Center academic partner.

**WHEN**

The program will run from July 5-August 10, 2018.

Applications are available at [https://www.umes.edu/geosciences](https://www.umes.edu/geosciences) and are due by April 20, 2018.

**WHERE**

The program will take place over 6 weeks at the University of Maryland Eastern Shore in Princess Anne, Maryland.

**WHY SHOULD I JOIN THE GEOSCIENCES PROGRAM?**

- Gain hands-on experience in several areas of geoscience
- Prepare for transition into college life
