

Congratulations to Dr. Willie Brown's AVSC 490 Senior Capstone class for participating in the 2018 UMES Research Symposium, 3MT trail undergraduate competition!

The students and topics included:

- Kenneth Austin, "The Outlook of Air Traffic Controllers and the Proposed Transformation to Create an Unionized Workforce";
- Kobina Amonyi Manley Nyarku, "Examining Aviation Safety Practices through Statistical Performance and Data Analysis"; and
- Scott Hogan, "What are the Future Implications of Privatized Industry in Commercial Space Exploration from an Aviation Science Perspective"
