UMES does not discriminate on the basis of race, gender, color, and national and ethnic origin, age, religion, and disability in the administration of any of its educational programs and activities or with respect to admission and employment.
PROGRAM DESCRIPTION
The Department of Technology at the University of Maryland Eastern Shore (UMES) offers a Master of Education Degree program (M.Ed.) in Career and Technology Education (CTED). The program will refine the student's knowledge and skills to become master classroom teachers, resource teachers, teacher consultants, specialists, and administrators in Career and Technology Education. The program is also designed to prepare teachers and educational leaders to qualify for Advanced Professional Certification (APC) in Maryland.

Students are admitted to the M.Ed. program in the School of Graduate Studies at UMES. Coursework is offered at the Baltimore Museum of Industry (BMI), UMES, and other satellite locations (based on enrollment).

The overall goal of the graduate program in Career and Technology Education is to prepare individuals to become master teachers, administrators, and leaders who are professional, reflective, innovative, value diversity and effective. Graduates will be proficient in developing, instructing, coordinating, and directing quality programs in Career and Technology Education.

Dear Prospective Student,

The UMES Department of Technology is looking forward to you enrolling in our well-established and rigorous Masters degree program in Career and Technology Education. The program is state approved in Maryland and is aligned with the UMES Department of Education / Council for the Accreditation of Educator Preparation (CAEP).

We recognize the continuum of learning between our programs and success in the field of Career and Technology Education. Our graduates are noted for their leadership roles in Maryland education.

Contact us for a visit and opportunity to discuss how our programs can meet your career advancement needs.

Thank you for considering UMES!

Dr. Kenny Fotouhi, Chair
Department of Technology
410-651-6465

ADMISSION REQUIREMENTS
Students who enter the M.Ed. program must possess an earned baccalaureate degree in one of the areas of Career and Technology Education: agriculture, business education, family and consumer sciences, health occupations, technology education, trade and industrial education, or a related content area. Matriculating students must meet all requirements for regular admission to the UMES graduate program. In some cases, provisional admission will be granted if students have a minimum grade point average of 2.75 along with meeting other requirements. Individuals with a GPA of 2.5 may apply through the Bridge Program. Students working towards PTE certification must pass four required courses before being admitted as a regular student.

Applicants must fulfill the following for regular admission:

- Complete the online graduate school application and related paperwork for a degree program.
- Possess an undergraduate cumulative GPA of at least 3.0, or possess a prior graduate degree.
- Submit a passing score on the Praxis I, Praxis CORE, ACT, SAT or GRE.
- May require a writing sample essay that focuses on current educational issues, as determined by the graduate faculty Admissions Committee.
- Submit official transcripts from all higher education institutions attended.
- Submit three letters of evaluation/recommendation that address:
  ◊ Personal qualities, e.g. character and academic abilities, problem solving, conceptual thinking, and the writing and speaking skills needed to support a rigorous graduate program.
  ◊ Personal determination and commitment needed to complete the program.
- Submit a resume and a statement of purpose for enrolling in the Master's degree program.
- Provide documentation verifying a teacher license or PTE Certification Evaluation MSDE form.

Transcripts and academic credentials of all applicants will be reviewed by the Department of Technology’s Graduate Admissions Committee. Individuals who lack appropriate coursework will be expected to complete the identified course content requirements prior to their enrollment in the capstone research portion of the program.

For admission questions, contact Dr. Loveland at tloveland@umes.edu.

PROGRAM BENEFITS
Most courses are hybrid, meeting every other week from 5—8PM. Online weeks have full instructions, resources, and assignments that meet course objectives, all housed in Blackboard, a 24/7 accessible Internet-based learning tool. Long distance students can participate through Blackboard Collaborate Ultra video teleconference.

UMES has one of the lowest state university tuition costs.

Maryland CTE teachers who live out-of-state are eligible for in-state tuition through a scholarship.

Timely advising from the UMES team at BMI to help students with registration, setting their course sequence, and graduating on time.

Cohorts develop life-long friendships and support.

Graduation with M.Ed. meets Maryland APC requirements and may lead to a pay increase.
