The online graduate degree program in Cybersecurity Engineering Technology is currently only accepting students who are full time residents of the state of Maryland.

UMES is accredited by the Middle States Commission on Higher Education.

OVERVIEW
The graduate program leads to a Master of Science in Cybersecurity Engineering Technology. The program is offered completely on-line with courses being offered three times per year, i.e. fall, spring, and summer terms. The 33 credit program consists of 12 semester hours of core courses, and 21 semester hours of elective courses.

The program focuses on:
- Network Security
- Mobile Wireless Networking and Security
- System Integrity for Cybersecurity
- Cybersecurity Administration

ADMISSION STANDARDS
Admission requirements include a bachelor’s degree in a technology-related field, such as: Engineering Technology, Computer Science, Information Technology, Software or Computer Engineering, Networking, Information Security or related disciplines.

Applications from candidates with bachelor’s degrees in non-technical fields may be considered for admission if they provide evidence of work experience in the field of Cybersecurity (such as a letter from their current supervisor) and possess one or more industry standard security certifications.

All applicants must show a strong record of academic achievement, as indicated by official transcript(s), three letters of recommendation, and satisfactory scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT).

ADMISSION PROCEDURE
Complete and submit a graduate application from the UMES School of Graduate Studies website at https://www.umes.edu/grad.
